## **Playing The Liar**

## **Diva Destruction**

Couldn't stand to see me happy Couldn't stand to watch me leave But you don't really want me back now You just want to watch me bleed, me Bleed, mind games, mind games, your Mind games never end, they never end Playing with fire, playing the liar, you Always did just want us both, lies lies lies Playing with fire, Playing the liar, you're Always selfish as can be, lies lies lies Here we go once again now, your mind

Games never end, you want your cake & me too, you always want it all, it all now, Cheater, cheater, a cheater always cheats They always cheat, they always cheat Not enough to rule the goth scene, you Want to rule me too, industrial god to all Your music's as sick as you, as you now Selfish, selfish, your selfishness is sick It's always sick, it's always sick
