Prey

Diva Destruction

Prey don't look behind you
Prey they're gonna fidn you
Run now, run now, run and hide
I see you tripping in your trials
Babe you're gonna drown

I see you standing in their circles
With your ribbons round their tree
And you are dancing, and they are
Dancing, and you are dancing
In their sickness

I see you smiling in your blindfold
As naiveté is your name
And they are laughing,
At their trapping
And they are laughing
Because you're their game
The predator game
