

## Safe with Me

Diva Destruction

I have waited  
forever and a day  
For time's window to  
open up once more  
Always hoping  
here to stay ashore  
With my endless tries  
for you to see

This is where i want  
to be always  
And you're safe with me  
you always were  
And you're safe with me  
There was no reason to doubt  
And you're safe with me  
Time Always Tells

You help take away  
the pain of this world  
Timing's dance has finally  
come in line  
Delayed by hiding truth i felt  
Thought a challenge  
was always preferred  
A field of fear we had  
to cross to meet  
Never risking our shields down first

This is where  
I want to be now  
And you're safe with me  
you always were  
So safewith me there was  
no reason to doubt  
And you're safe with me  
Time Always Tells  
Time always tells,  
Safe with me, safe with me
