

3 Legends In Steinberg

Divided By Friday

It starts off with a lie
Better yet, a bending of the truth
That hurts like an aching in your tooth
So subtle and yet so strong,
They'll believe its true, so you just ignore that it's wrong
It's like a string that keeps tugging at your soul
If something doesn't change then you swear it'd gonna swallow you whole,
Tongue tied and out of touch
Never thought it'd hurt this much

Just let it go
The storm is over now
Just let it out
The sun will shine, the tides are turning
The flames may be low, but they're still burning
Just try,
Tonight..
You only get one life to live
So live it out until your days are gone

Times change, but people never do
We both know I changed myself for you
You're everything that I ever wanted
The only thing that I ever wanted
Was to see a smile across your face
But now we're stuck in the same place

Just let it go
The storm is over now
Just let it out
The sun will shine, the tides are turning
The flames may be low, but they're still burning
Just try,
Tonight..
You only get one life to live
So live it out until your days are gone

And I'm waiting on you..
And I'm waiting
On you..

Just let it go,
Just leave the past behind
And then you know that you will find
Everything that you have been
Looking for..

Just let it go,
The storm is over now
Just let it out
The sun will rise

For you
It's not the end

For you, tonight
Keep holding on
