

## Rhythm of the Room

Divided By Friday

You see me staring at you in this crowded room  
and I'm thinking that it's time I make my move.  
I just gotta find out how to get you over to my place.  
You can't look me in the eye you only look the other way.  
Now, I'm whispering in your ear.  
Do you wanna disappear.

Hey, I really wanna get to know you.  
Hey, I really wanna get to love you.  
But, I keep hearing,  
Everybody's touching your body.  
Everybody's touching your body.  
Everybody's touching your body.  
Everybody's touching your body.

Now, we're moving to the rhythm of the room.  
You pull me closer. Now, I know you're leaving soon.  
I just gotta find out how to get you over to my place.  
You can't look me in the eye you only look the other way.  
Now, I'm whispering in your ear.  
Do you wanna disappear.

Hey, I really wanna get to know you.  
Hey, I really wanna get to love you.  
But, I keep hearing,  
Everybody's touching your body.  
Everybody's touching your body.  
Everybody's touching your body.  
Everybody's touching your body.

I just gotta find out(I just gotta find out).

Hey, I really wanna get to know you.  
Hey, I really wanna get to love you.  
But, I keep hearing,  
Everybody's touching your body.  
Everybody's touching your body.  
Everybody's touching your body.  
Everybody's touching your body.

Hey, I really wanna get to know you.  
Hey, I really wanna get to love you.  
But, I keep hearing,  
Everybody's touching your body.  
Everybody's touching your body.  
Everybody's touching your body.  
Everybody's touching your body.
