

What Gets You Alone

Divine Fits

Jessica please
Take out insurance on me
and when you leave
Don't forget to keep yourself
keep yourself alright

Cause down at the club
They're playing number after number
So nice
Feels better
Keeps you up all night
Keeps you up all night

But I feel alone
Hanging in the elevator
Take me home
Cause my love is my love is lost
It is lost

I'll never never know
What gets you when you're alone
I'll never never know
What gets you alone

So out on the street
I feel it coming
Felt it walk up to me
and yes it moved me
I felt alone, hanging in the elevator
Take me home cause my love is my love is strange,
strange

My my my my my my my heart's a mess
Heart's a mess
But it moved me
I let it fall

I'll never never never know
What gets you alone
What gets you when you're alone
I'll never never never know
