Lately  
(I've been watching you)  
Been thinkin' bout you  
Baby  
(And everything you do)  
Just sittin' away watching the days go by  
Lately  
(I've been watching you)  
Been thinkin' bout you  
Baby  
(And everything you do)  
Just sittin' away watching the days go by

1. Have you every felt a breeze in your heart ,  
Like the wind was blowing it apart  
As you're spinning like a merry-go-round  
Indications of a storm touching down  
Wish that I can wear the rain and storm ,  
But I guess it was a heartbreak from the norm  
Was a day I will always remember  
The saddest day in sweet November
