

## Nas Interlude (Skit)

Divine

Yo all we heard is Nas on the CDs  
This is the Guru! We call it!  
Guru is the Teacher  
This one's the Guru, yeah!

I still remember people saying that hip-hop would not be around  
That it's just gonna be here today gone tomorrow  
People really not respecting it as an art form  
And there was just no love for hip-hop  
On a, on a global level, on a major level  
This here prove everybody wrong that is here that is growing  
And that's a universal language you know, I love that  
And Divine he's dope man  
Where'd he come from is what we need to learn more about  
'Cause we know where it is from in New York  
But also where he's from  
The way he is saying his poetry, his style  
What he's doing that really means for us  
So we love to be partners with you  
We're happy to be partners with you  
We love your music, we love what you do  
We're in love with the people that's into you  
And we wanna see here, happening it over here in America  
Mass Appeal Mumbai Baby  
It's going down
