

# Unchain My Soul

Divinefire

Face to face with sin  
I know what's right, what's wrong  
Let the inner man point out my way

Better think once, better think twice  
Somethings inside says stay away  
Somethings inside says stay away  
I was blind, but now I see  
He gave me love  
He gave me strenght  
To unchain my soul

Everyday's a race  
Be careful what you take in  
Let the love grow strong in your heart

I know the spirit's leading  
My eyes are closed, I am not afraid  
Hold on, hold on  
We have the power of the cross
