

To The Other Side

Division of Laura Lee

Think about the things i've done
All the things gone wrong
Past mistakes that now seem colourful and beautiful and...
It's time to stop and listen up
And have look ahead
Live life a different way, the western european way
One step back to the other side
Just one more day and i'll be fine
Alright
Trouble goes and trouble comes
I remain insane
I stay close to you love, in your arms safe from harm
Used to be one of a kind
Something great in mind
But now, like all of us, i cannot think without a drrrrinkkkk
One step back...
It's not easy to end. Sneaking up on mr prez
I went down for research
Sick of falling behind
Drag you out for answers
Don't leave until im fine
Empty streets of boredom
Leaves me on my own
Changes makes me nervous but
Now it's time to rise
I wanna know
I wanna feel
I went down for research
Sick of falling behind
Drag you out for answers
Don't leave until im fine
Empty streets of boredom
Leaves me on my own
Changes makes me nervous but
Now it's time to rise
I wanna know
I wanna feel
Can you lift me up, close enough comes a time
Do you wanna help me feel
Will you stay with me, when alive out of mind
And give me what i need
Close enough comes a time
