

# Cold Day In July

Dixie Chicks

G D Em G C G D

G D Em G  
The moon is full my arms are empty  
C G D  
All night long I've pleaded and cried  
G D Em G  
You always said the day that you would leave me  
C G D G  
Would be a cold day in July  
G D Em G  
Your bags are packed not a word is spoken  
C G D  
I guess we said everything with good bye  
G D Em G  
Time moves so slow and promises get broken  
C G D G  
On this cold day in July  
F C G  
Sun's coming up coming up down on Main Street  
F C G  
Children shout as they're running out to play  
Em D  
Head in my hands here I am  
C G  
Standing in my bare feet  
Em D G  
Watching you drive away  
Em D G  
Watching you drive away  
G D Em G  
You said that we were gonna last forever  
C G D  
You said our love would never die  
G D  
It looks like spring and  
Em G  
It feels like sunny weather  
C G D G  
But it's a cold day in July  
F C G  
Sun's coming up coming up down on Main Street  
F C G  
Children shout as they're running out to play  
Em D  
Head in my hands here I am  
C G  
Standing in my bare feet  
Em D G  
Watching you drive away  
Em D G  
Watching you drive away  
G D Em G  
The moon is full my arms are empty  
C G D  
All night long how I've pleaded and cried  
G D Em G

You always said the day that you would leave me

**C**                    **G**                    **D** **G**

Would be a cold day in July

**Am**                    **G**                    **D** **G**

Here comes that cold day in July
