

# There Goes My Dream

Dixie Chicks

There goes my dream  
Walkin' down the street  
With somebody new I love him so  
There goes my dream He will never know  
What he means to me

There goes my dream I was dreamin' of happiness  
No more of this loneliness  
A life of togetherness  
A love without end

But there goes my dream  
Walkin' down the street  
With somebody new  
There goes my dream  
He will never know I love him so

What he means to me  
There goes my dream I was dreaming of family  
Of a wonderful life  
Sharing the memories  
Of him growing old with me  
But there goes my dream

Walkin' down the street  
There goes my dream  
With somebody new I love him so  
What he means to me He will never know

There goes my dream I love him so  
What he means to me  
He will never know  
There goes my dream
