

Voice Inside My Head

Dixie Chicks

I was only a kid
When I said goodbye to you
Ten summers ago
But it feels like yesterday
Lost, scared and alone
Nothing I could give to you
I tried, I really did
But I couldn't find another way

And I want and I need
Somehow to believe
In the choice I made
Am I better off this way

I can hear the voice inside my head
Saying you should be with me instead
Every time I'm feeling down, I wonder
What would it be like with you around

So I, I made my way
Cold and roaming in the wild
I'm forever changed
By someone I never knew
Now I've, I've got a place
I've got a husband and a child
But I'll never forget
What I've given up in you

And I want, I need
Somehow to believe
In the choice I made
Am I better off this way

I can hear the voice inside my head
Saying you should be with me instead
Every time I'm feeling down, I wonder
What would it be like with you around

And I want, I need
Somehow to believe
In the choice I made
Am I better off this way
