

Girlfriend

Dixie D'Amelio

Is there somethin' you're avoidin'? (Avoidin')
You're dosin' conversation like it was poison
There's somethin' you've been ignorin' (Ignorin')
Later he guess, I see it's somethin' important

And I know we got chemistry
I can feel all the energy
And you say we should probably leave
With your hands all over me
I get a little concerned
And I say what I overheard
And you say that you're over her
I'm not sure

But I feel so right
If you want me tonight
Let me tell your girlfriend
Let me tell your girlfriend
And if I mean so much
If you say I'm the one
Let me tell your girlfriend
Let me tell your girlfriend

I really wanna believe it (Believe it)
I know you know that you're not makin' it easy
And now I'm thinkin' it over (Over)
You know I like it when you keep comin' closer

And I know we got chemistry
I can feel all the energy
And you say we should probably leave
With your hands all over me
I get a little concerned
And I say what I overheard
And you say that you're over her
I'm not sure

But I feel so right
If you want me tonight
Let me tell your girlfriend
Let me tell your girlfriend
And if I mean so much
If you say I'm the one
Let me tell your girlfriend
Let me tell your girlfriend

Let me tell your girlfriend (Ooh-ooh, ooh-ooh)
Let me tell your girlfriend (Ooh-ooh, ooh-ooh)

Talk to her like you talk to me
Do you make believe like everything's under control?
Do you hold her close when you get home?
Do you make believe, honestly?

But I feel so right
If you want me tonight
Let me tell your girlfriend (Let me tell your girlfriend)

Let me tell your girlfriend (Let me tell your girlfriend)
And if I mean so much
If you say I'm the one
Let me tell your girlfriend (Let me tell your girlfriend)
Let me tell your girlfriend (Let me tell your girlfriend)

Your girlfriend, your girlfriend (Let me tell your girlfriend, let me tell y
our girlfriend)
Girlfriend
Let me tell your girlfriend
Let me tell your girlfriend
