

Worth Fighting For

Dizmas

Wait is easy going the best for us?
Why is faith becoming so comfortable?
I'm finding out
Oh, We're looking for answers
We're not asking questions
Let's move on

It's worth fighting for....
Don't give up, give up, hold on
we're making progress
Reach out, reach out, reach up
and he will lead us on
Come on, Come on
We're getting stronger now
The end is worth fighting for

Oh, there is hope in the aftermath
Faith will show what's next for us
and we'll move on it
Small steps will lead to bigger things
His voice brings new beginnings

We have a chance to cause a reaction
It's beyond our human action
Oh God, we need you to move us now
