

# Arse Like That

Dizzee Rascal

Kingston! Redone!  
Dizzy!

Look at that back off stack tough  
Maybe when the jack off  
I gotta take my hat off  
Standing ovation, round of applause  
Clap off, all up in my face  
I could never lose track of  
I don't wanna sound rude  
But you got a lot of cheek  
And your body looks pink sweet pea  
Good enough to eat  
I'm guessin you're a lover in the sheets  
I really wanna be  
And I ain't never seen a bottom like that before  
I ain't never seen a bum so fat before  
You got that galore  
I'll be your happy choppy if you smack your floor  
I'll tap your phone, just lock your phone up  
I don't wanna waste your time  
But when I chase what's under your waistline I'm fine  
I'm just having a bomb but I'm zonin  
Wish I never could only  
I just wanna promote, yea I'm bonin

You got em falling like when you break it down  
You're like a heart attack yeah  
No wonder no man around you can act sane  
When you're moving like that  
But they don't understand that they don't got a chance  
'Cause I got other plans for us tonight  
You got em falling like when you break it down  
'Cause they never seen an arse like that  
Bounce!  
Arse like that  
Bounce!  
Arse like that

Your buff is done, your arse is retarded  
A little junk in your trunk but far from garbage  
You're a keeper, come and ride in my 2 seater  
Late night creeper, I'm pleased to meet ya  
Hate to see you go, love to see you leave  
Figure I can't perceive, figure I can't perceive  
Wondering how you achieved such a beautiful body, I can't believe  
So sorry I'm lost for words, I could hardly breathe  
God give me strength, yea my pants a glisten  
Checkin it all over the shop, you ain't rushin  
I wanna get closer, of course I better step in  
You got the kind of body I won't be forgetting  
Pleasing my senses, I ain't being pretentious  
There's a lot of incentive why you're being defensive  
I'm a bedroom bully, let me beat you up  
Stop playin, girl let me heal your heart, what's up?

You got em falling like when you break it down

You're like a heart attack yeah  
No wonder no man around you can act sane  
When you're moving like that  
But they don't understand that they don't got a chance  
'Cause I got other plans for us tonight  
You got em falling like when you break it down  
'Cause they never seen an arse like that  
Bounce!  
Arse like that  
Bounce!  
Arse like that

Wind that bum bum, move that bum bum  
Shake that bum bum, grind that bum bum  
Let me smack you up, back it up  
Let me smack you up, back it up

You got em falling like when you break it down  
You're like a heart attack yeah  
No wonder no man around you can act sane  
When you're moving like that  
But they don't understand that they don't got a chance  
Cause I got other plans for us tonight  
You got em falling like when you break it down  
'Cause they never seen an arse like that  
Bounce!  
Arse like that  
Bounce!  
Arse like that
