Life's too short to be livin' with stress  
I'm too young to be all depressed  
I can't complain, I'm highly blessed  
And there's one thing that I want to get off my chest  
I'm free as a bird, I'm high as a kite  
I could do what I want, and I'm doing alright  
That's why I just might celebrate tonight  
And if you ain't down with it, then get on your bike  
To sank elsewhere, who the hell cares  
I'm in great shape, you need health care  
If you can't say something nice, then keep quiet  
Or come to the club, there's girls there  
I'm goin' to rave 'til six in the mornin'  
I can already hear the bassline callin'  
Just make up your mind, stop stallin'  
And don't be half assed, 'cause I'm all in

So if your wallet ain't fat, don't worry about it  
Your car don't work, we can go without it  
We don't need wheels, just the will to party  
I'll take you there, don't doubt it

(Dance, I'll take you there)  
Disco, disco, disco, disco  
(Dance, I'll take you there)  
(Dance, I'll take you there)  
Disco, disco, disco, disco  
(Dance, I'll take you there)  
Let's go, let's go, let's go, let's go

You wanna drink? It's on me  
Coca-cola, JD  
I don't care about VIP  
'Cause the middle of the dance floor's cool with me  
I wanna shock tonight  
I wanna rock tonight  
Come love, let me be the robot tonight  
So many damn girls lookin' hot tonight  
So before I leave here, I wanna cop tonight  
So I can't just stand up against the wall  
Try'na play it cool, feelin' like a fool  
Like I'm scared to dance, 'cause I ain't scared at all  
So there's no point lookin' all miserable  
So I've got a big grin on my face  
And my hands on a pretty girl's waist  
Beer budget and champagne taste  
But I feel like I'm running this place

So if your wallet ain't fat, don't worry about it

Your car don't work, we can go without it  
We don't need wheels, just the will to party

I'll take you there, don't doubt it

(Dance, I'll take you there)  
Disco, disco, disco, disco  
(Dance, I'll take you there)  
(Dance, I'll take you there)  
Disco, disco, disco, disco  
(Dance, I'll take you there)  
Let's go, let's go, let's go, let's go

Come, follow me to the place  
We can party all night, yeah  
Leave your worries behind (let's party)  
We've only got your star if only for tonight (show the world!)  
Show the world you can shine (that's right!)  
Everyone's happy so there'll be no drama tonight  
There's always yours to define  
So let down your hair and prepare for the time of your life  
The time of your life, yeah

Brrrrrrrr-aaaah!  
Oooooooooh-aaaah!

I'm feelin' myself right now  
Really revealin' myself right now  
I'm actin' a fool, and I think it's all good  
I wouldn't be nowhere else if I could  
I don't ever wanna go home, let's stay  
Party all night and party all day  
What do you say? Tell me you're on it  
Drink 'til we can't stand up, then vomit  
Quicker than a comet, I feel like a star  
Everyone waves, they know who we are  
So much love, so much dread  
Tell me you don't feel like a tomboy  
In fact don't tell me nothing, just skank  
'Cause I got a shawty and shizz in the bank  
No need to thank, the pleasure is mine  
We should try do this again some time

And if your wallet ain't fat, don't worry about it  
Your car don't work, we can go without it  
We don't need wheels, just the will to party  
I'll take you there, don't doubt it

(Dance, I'll take you there)  
Disco, disco, disco, disco  
(Dance, I'll take you there)  
(Dance, I'll take you there)  
Disco, disco, disco, disco  
(Dance, I'll take you there)  
Let's go, let's go, let's go, let's go-o-o-o
