

## Eastside

Dizzee Rascal

Live and direct from the eastside  
Had to fight for respec' in my Levis  
Line in my head like Leroy  
Used to ride through the ends like Levi  
White girl on me like a d-boy  
But all I know now is the B-line  
I got the feds following the decoy  
Google Maps, I'm streetwise  
I saw that coming  
Eliminate all risks by taking the risks  
I made sure we brought that suttin'  
You man are on thin ice with all that ducking  
Lord almighty, I check the scoreboard nightly  
Youngers jump out the Ford all wilding  
44 firing, I can't ignore your smiling  
What are you smirking for?  
Anyone off the rails, it's curtains for  
I'm certain you're, searching for a third world war  
Yes don, vest on  
Drop when I flex bombs  
Them man are haters  
They be in the club like "play anything, just not one of Ghetts' songs"  
I could not be highlandered  
No-one's levelling by my standard  
Man wanna put a bullet in the same mind that planned it  
I don't mind that madness  
I feel mind to madness  
It might cost me an arm and a leg if I step on your mine  
What amping?  
Brain on my head, still it's mindless action

Satisfaction  
I cosign that reaction  
Tit for tat, counteract, no chat, no caption  
In fact, no fact, why you feeling yourself? I'm the captain  
You kick back, relax, and stop acting  
You ain't the main attraction  
You're just attracting the plastic black sack for you to get wrapped in  
Anytime I get on the track in the tap, that's what's happening  
I stay ready, so I ain't gotta get ready  
It ain't even necessary, I'm a vet, you're a veggie  
Me and Reggie been steady since Matthew Kelly and Gino Ginelli  
There was only 5 channels on the telly  
Did dirt for the thrill and the belly  
Now I just fill up my belly in a room full of smelly  
Tubby said "Dyl, you better give it some welly" but I gotta come heavy  
Ban 'em up, jab 'em up, grab 'em up  
We had a rock, they talking like I never had 'em up  
Not a care in the world, I never had a fuck  
I stay cocked in the car  
We're starstuck and on chuffed but ease up, I ain't Daffy Duck  
Yeah, I made it out the gutter with a bit of luck  
And if it ain't nothing nice, you better keep your dick sucker shut  
I ain't into the nonsense, I'm content  
I ain't really feeling your content and I ain't even begging your consent  
You're on bench, you ain't got a leg to stand on  
You ain't got a patch to land on

I want a little lizzy I can get my hands on  
You keep rambling on the 'gram, what's your plan don?  
Calm down, change your tampon  
I couldn't care what a man's on

Gas not, I don't care who a man was  
One still here and I'm Van Gogh  
That's a take and a stanton  
It was make it or bank rob  
Same cake, different candles  
Same snakes, different angles  
And we clock them little pussies  
Binoculars, gotta watch them little pussies  
And be the last drop off for them little puss...  
You couldn't live in the area with these fellas  
This is Hagler and Hearns and Leonard  
This is Wrighty, Merson and Dennis  
This is bad boys, new Jack and Menace  
So gwan act like you're the coldest one  
I got plaques older than your oldest son  
I got the Bond suit and I got the golden gun  
That's for the young bucks, thumbs up  
Get run up, gun bucked  
Spin an MC with my adlibs  
Spin an MC with my adlibs  
8-0-8 make a man get (mad)  
If man call K then a man get (grabbed)  
White winer, rum limer, spun nicer, one liners he fucked right up  
These Bozos are no fighters  
Debos but they're so cyber  
I am so not a cosigner  
I don't believe in no writers  
Plastic, I don't believe in no fibres  
East siders  
Difference between bars and bibles  
Nastier than sygons, pars wrapped inside us, but still ain't the path of a m  
ileage  
Rev it and rip  
Seckle and sh... this is legendary shit
