

## Here For Now

Dizzee Rascal

Real ones applaud and clap their hands together  
Hate gets air they stay down there and broke forever  
It's light to get a man hit with heavy metal  
A ton of copper weighs the same as a ton of feathers  
Came into the scene as the golden child  
We'll see who still will be around  
And who's only here for now  
Who's only here for now

Goodness gracious, check the status  
I set pace, check my face it's so audacious  
They say money can't buy you class or buy you taste  
Still my place is big and spacious  
And I'm mates with all my neighbours  
They ain't fazed and I get favours on occasion  
And I've been on top for ages like I'm ageless  
I went through a hundred phases  
Till them wastemen and them Paigons  
Recognize that they can't fade this, 'cause I'm a fadeless  
So just add me to your playlist  
Count your blessings, say your graces  
It's okay to sing my praises

Real ones applaud and clap their hands together  
Hate gets air they stay down there and broke forever  
It's light to get a man hit with heavy metal  
A ton of copper weighs the same as a ton of feathers  
Came into the scene as the golden child  
We'll see who still will be around  
And who's only here for now  
Who's only here for now

What's the difference (What's the difference)  
I've done the distance (I did it, I did it), full commitment  
(Full commitment)  
Pure persistence (Yeah), got to speak it into existence, insistence  
Might be a little bit of resistance  
Might need a little bit of assistance  
But you got to keep grinding got to keep riding  
Perfect timing keep close eye and it'll all tie in  
Can't stop trying, strong as a lion get your mind right  
And I am solid as iron that's why I'm flying smiling and vibing

Real ones applaud and clap their hands together  
Hate gets air they stay down there and broke forever  
It's light to get a man hit with heavy metal  
A ton of copper weighs the same as a ton of feathers  
Came into the scene as the golden child  
We'll see who still will be around  
And who's only here for now  
Who's only here for now
