

Money Right

Dizzee Rascal

Awwwwwww shit
Yeah yeah
Raskit, Skepta
Beats to the end tryna get that cash
Yeah goin' on dirty goin' on stank

You throw a penny up the wall
Pick the money up off the floor
You grip it you flip it
Tell the plug you need some more
Second time tonight
Tell him you need a better price
He said the weight is heavy
Tell him you need the exercise
My money right
Wait till I get my money right
My money right
Wait till I get my money right
My money right
Wait till I get my money right
My money right
Wait till I get my money right

Hey, stop that start that get that
No we ain't ducking no get back
It's Rascal and Skeppy
With something peppery for your headback
Ain't no disrespect better dead than
Come through stuntin' and sittin' all jet black
Mandem hustlin' and crumblin'
Rollin' and bunin' that jet pack
Stumblin, lungs and lookin' all jet black
Old school east side brother I rep that
You go check that you'll get your neck snapped
All of them setbacks
Kept me on the tip of my crepes and I can't forget that
Forget my check and you will regret that
I get the the check and they can't affect that
You better check that
This all correct up get that check back

You throw a penny up the wall
Pick the money up off the floor
You grip it you flip it
Tell the plug you need some more
Second time tonight
Tell him you need a better price
He said the weight is heavy
Tell him you need the exercise
My money right
Wait till I get my money right
My money right
Wait till I get my money right
My money right
Wait till I get my money right
My money right
Wait till I get my money right

Go on then we don't play it's Skeppy and Raskit
Back with a brand new track yeah the London wave
Everyday man follow me surfin' online tryna catch the wave
Get baptize make your whole crew capsize
Been bullying crews for days
Tell that pussy'o stop talking rubbish
Man are came in with the thuggish ruggish
You cannot talk about the roads to a guy that's fuckin' done it
Running around the street with a balley for the money
Fathers got the yutes with the swammy in the bugey

I'm the alpha omega please
Take what's older I slay you freeze
Lay you out where you stay that's greaze
I don't ramp I don't play and I do not bend
And I do not sway with ease
They can't sway me away from Ps
I want all of the smoke I'm wheezy
And I smoked about 1000 trees
Breathe easy you know my steez
E3 and Meridian Gs
Way I move so ghost I'm local but I'm thinkin' I'm overseas
Trying to seize some vitamin D
Plotting the Is and crossing the Ts
Way I see it you can't be serious if you ain't from my [?]

You throw a penny up the wall
Pick the money up off the floor
You grip it you flip it
Tell the plug you need some more
Second time tonight
Tell him you need a better price
He said the weight is heavy
Tell him you need the exercise
My money right
Wait till I get my money right
My money right
Wait till I get my money right
My money right
Wait till I get my money right
My money right
Wait till I get my money right
