

## Off 2 Work

Dizzee Rascal

Callin' all workers  
Time to put your working on the dance floor  
Stop moaning  
I don't wanna hear nothing, let's go

And pro and so, it's off to work, I go  
No flow, no show, no go, okay, it's off to work, I go  
And pro and so, it's off to work, I go  
No flow, no show, no go, okay, it's off to work, I go, okay

On top above all I flow Fabian way, beyond control  
Lyrical pro, no, full time hustler out for the dough  
Put my lifetime of grime in rhymes  
Rudeboy, these are turbulent times

Some of you invest in Glocks or nines  
I've seen no definite stop signs  
On top above all and real, ain't afraid to show how I feel  
Ain't afraid to kill bill, keep in touch with the stainless steel

Ain't too many doing it like bill  
With all my concept hustling skill  
Exceptional, respect me still  
If not hold your corner and chill

And pro and so, it's off to work, I go  
No flow, no show, no go, okay, it's off to work, I go  
And pro and so, it's off to work, I go  
No flow, no show, no go, okay, it's off to work, I go

On top above all I flex, come clear I don't fear whose next  
(No)  
Hot like tex mex but I gotta keep my cool to get cheques  
Musics simple but its complex  
Out of the blue everybody gets vex [unverified]  
Tainted love without the corsets

On top above all I rain  
Think of my heart I rule my own brain  
Vigilant mind frame  
That's the easy way to maintain

Otherwise go ahead act insane  
If not do the best to obtain  
Long jeopardy in this fucked up game  
Extreme levels of pleasure and pain

And pro and so, it's off to work, I go  
No flow, no show, no go, okay, it's off to work, I go  
And pro and so, it's off to work, I go  
No flow, no show, no go, okay, it's off to work, I go

Born in a quoir floss on the low  
Flat broke never know  
Forever grow, forever king  
Trying without bling bling

Whatever long term hustler forever doe  
Forever glow, superstar I've gone clear  
To ever iroe solo your never near, I'm sincere  
But fear, whatever name up for year I'm here [unverified]

Forever ill stick it and steer  
Forever whatever the postcode or path  
Let's not cross find out for a laugh  
Your never gonna stop my graft [unverified]  
I'm too clever don't be daft

And pro and so, it's off to work, I go  
No flow, no show, no go, okay, it's off to work, I go  
And pro and so, it's off to work, I go  
No flow, no show, no go, okay, it's off to work, I go

Just listen to the lyrics, you don't need to ask for them  
Use your ears, that's what I've just done  
Maybe a couple of bits I got wrong  
But fuck it, there is most of it
