

# Patterning Vibez

Dizzee Rascal

Yo I woke up this morning  
I had a little stretch, had a little yawn  
Looked up (lovely), I see the sun shining, I could hear the birds tweeting (tweet, tweet, tweet), and I thought yo, I'm gonna make this day count rude boy  
Chorus  
Catching a vibe, out here patterning vibes  
Catching a vibe, out here patterning vibes  
Catching a vibe, out here patterning vibes  
Catching a vibe  
Verse 1  
Woke up and I felt all vibey  
Woke up and I felt all lively  
Woke up I was like cor blimey  
Got a whole lotta vibe inside me  
My nuts were a little bit grimy  
My guts were a little bit slimy  
Washed up and made myself tidy  
Now I'm spick and I'm span and I'm shiny  
Then I said Jesus lord please guide me  
Don't let these p\*ssyholes try me  
Don't wanna see me get fiery  
But I know that you won't deny me  
Let me know everything is irie  
He said dun know that I'm your guy G  
I said amen and thank you kindly  
Then I hopped in the whip all smiley  
Chorus  
Catching a vibe, out here patterning vibes  
Might get ghost for the weekend grab one yattie and go for a ride  
Catching a vibe, I'm so happy inside  
I don't know about them man there but I'm so gassed I'm alive  
I've been waiting for so long, to pattern a vibe its true  
Now that I've caught this I ain't gonna let go until the whole nights through, coz I've been waiting for so long to catch a vibe with you yeah, so if you wanna catch my wave, maybe you will come my way, yeah yeah  
Verse 2  
Creeper, and I feel like a right proper geezer  
Hold on let me get a little deeper  
Let me tell you how my day gets sweeter  
I got a ting over there I don't cheat her  
Got a ting I just poke I don't tweet her  
  
Roll up to the spot then I beep her  
Roll up to the spot on time like the reeper  
Open the door and I greet her  
I say waguan my senorita  
You look like a right little keeper  
Wanna get you a berry then feed ya  
Better buckle up tight coz I need ya  
Like your birthday the way I'm gonna treat ya  
Got a whole lot of bass in my speaker  
And your probably with a rassclart overachiever  
Chorus  
Catching a vibe, out here patterning vibes  
Might get ghost for the weekend grab one yattie and go for a ride  
Catching a vibe, I'm so happy inside

I don't know about them man there but I'm so gassed I'm alive  
I've been waiting for so long, to pattern a vibe its true  
Now that I've caught this I ain't gonna let go until the whole nights through  
h, coz I've been waiting for so long, to catch a vibe with you yeah, so if you wanna catch my wave, maybe you will come my way, yeah yeah  
If you wanna ride, come we can pattern a vibe  
I've been waiting all my life  
So we've got to get it right, yeah, yeah  
If you wanna vibe, come we can pattern it right  
I'm just celebrating life, I'll be doing this all night, trust
