

# Love at Second Sight

Dizzy Mizz Lizzy

Wake up  
I just wanna talk to you  
And tell you what I'm going through  
Wake up  
Hang on  
You don't need to prove me wrong  
Or bomb me to oblivion  
Hang on  
Ohh  
I'm a believer  
Dreams never lie  
A face of the future  
Is love at second sight  
Ohh  
All for the better  
Starting tonight  
I will surrender  
To love at second sight  
Wake up  
Love is like a dynamo  
to take me where I need to go  
Wake up  
Hang on  
I don't wanna change a thing  
All I want is everything  
Hang on  
Ohh  
I'm a believer  
Dreams never lie  
A face of the future  
Is love at second sight  
Ohh  
All for the better  
Starting tonight  
I will surrender  
To love at second sight  
I'll forgive you if you should forget  
Every feeling is out of your head  
For the better starting tonight  
I'll surrender to love a second sight  
I'll forgive you if you should forget  
Every feeling is out of your head  
For the better starting tonight  
I'll surrender to love a second sight  
Ohh  
I'm a believer  
Dreams never lie  
A face of the future  
is love at second sight  
Ohh  
(I'll forgive you if you should forget)  
All for the better  
(Every feeling is out of your head)  
Starting tonight  
(For the better starting tonight)  
I will surrender - (I'll surrender) to love at second sight
