

Say It to Me Anyway

Dizzy Mizz Lizzy

Nobody knows when it's gonna be over
Nobody knows when the time will run out
If you believe that it won't make a difference
I'd rather you hurt me than leave me in doubt
Say it to me anyway
Say it to me anyway
I don't really wanna know
Say it to me anyway
Everyone knows that we're going through changes
Everyone knows that we'll get out alive
If you believe that you're making it easy
I'd rather be hurt than believe in a lie
Say it to me anyway
Say it to me anyway
I don't really wanna know
Say it now, before you go
But I don't wanna lose you you
to a feeling I used to
and the feelings where you are
There's a wall I need to break through
and it's all I need to make you stay
Say it to me anyway
Say it to me anyway
Say it to me anyway
Say it to me anyway
I don't really wanna know
Say it now before you go
Say it to me anyway
(nobody knows when it's gonna be over)
Say it to me anyway
(nobody knows when the time will run out)
I don't really wanna know
(if you believe that it won't make a difference)
Oh, say it to me anyway
Say it to me anyway
