

Ambush

Dizzy Wright

They know who I am, I get ambushed
Mess with the fam and get your ass whooped
Tell the rap game this an ambush
I'm not scared, I'll ride on every one of y'all
They know who I am, I get ambushed
Mess with the fam and get your ass whooped
Tell the rap game this an ambush
I'm not scared, I'll ride on every one of y'all

Where my phone at? Let me hit up my home skillet
I heard they top five and someone don't belong in it
How the spot's taken if I'm not in one?
They tryna figure out where all this positivity from
Living 'cause I really just wanna get rid of you bums
As black as my gums, they acting and you actually dumb
Year after year, I'm just on a casual run
Catalog deep, all they do is duplicate the sheep
That nice guy shit is a wrap
They shitted on me on my come up, I was tryna collab
I remember I used to come home and we would split it in half
Never thought helping out would leave me down a negative path, remember that
No false narratives, that's how they control minds
Only believe half of what you hear in rap lines
Whole time I'm thinking it was my zodiac sign
That motivated me to wanna create a new design
What's the word?

They know who I am, I get ambushed
Mess with the fam and get your ass whooped
Tell the rap game this an ambush
I'm not scared, I'll ride on every one of y'all
They know who I am, I get ambushed
Mess with the fam and get your ass whooped
Tell the rap game this an ambush
I'm not scared, I'll ride on every one of y'all

Better than your favorite, whoever you playing get slayed quick
Bunch of niggas changed the rap game looking like a slave ship
It's not a maze but it's amazing how you making it complicated
The niggas you conversating don't make it into my conversations
Abominations get hot and got me without a patience
Meanwhile I get surgical like a doctor doing operations
The game is basic, most niggas don't make it beyond the fakeness
You thinking we [?] but face it, you couldn't even tie my laces
I'm mentally stable, most you niggas meant to be able
Killed by your brother over jealousy fucking with labels
They'll keep selling you horse shit, now you stuck in a stable
If you married to the game, treat that bitch like she young and unfaithful
Dumb and ungrateful, just got done getting a facial
From another man right where you stand, how this game'll replace you
Fuck getting a feature from these cornballs
Real recognize real so I had to pick up when Dizzy made that phone call

They know who I am, I get ambushed
Mess with the fam and get your ass whooped
Tell the rap game this an ambush
I'm not scared, I'll ride on every one of y'all

They know who I am, I get ambushed
Mess with the fam and get your ass whooped
Tell the rap game this an ambush
I'm not scared, I'll ride on every one of y'all
