

# Deal Wit

Dizzy Wright

Poverty got me stealing shit and running from the boys  
Mama working for a temp agency, man any day she could be unemployed  
It's a war zone out here  
My family can't afford no health care  
Got daddy issues at home, so I'm damn sure I ain't finding no help there  
So I'm in the streets, Satan like to save his place for me  
But everyday we're waking up and pray the police don't do us like Freddie Grey  
I heard there's niggas dying everyday  
I don't think they got the homies losing sleep  
My community lacking unity  
Who gonna help us with these opportunities?  
Look, barely even learned loyalty  
Cause the streets will eat you up and spit you out  
Getting older, got to help with bill or mama probably finally kick me out  
Brody stay in school  
Don't be selling weed before them school dongs come sniff you out  
Then he hit a lick and felt bad about it  
Like the Devil grabbed it and ripped it out (ripped it out)

[Hook:]

Tell them this the shit that we deal with  
But I can't deal with it no more  
Trying to get ahead  
Since he heard her give birth and raise the dead  
I mean damn  
This the shit that we deal with  
But I can't deal with it no more (no more)  
Life's getting tough, I don't know (don't know)  
Don't lose control of your soul  
Tell them this the shit that we deal with  
Tell them this the shit that we deal with  
Tell them this the shit that we deal with  
Tell them this the shit that we deal with

Something smart could save somebody's life  
When you finish starting, what you waiting for?  
If you're losing focus, you should play this more  
Always winning more, Michael Jackson '84  
Gotta keep it thriller, don't it sound familiar?  
Have a 40 with your niggas  
And look around  
Cause in a couple years everybody won't be in the picture  
Why you rolling up winners?  
I'm losing my mind  
Cause a woman of the year was Caitlyn Jenner  
That's disrespectful, I'm offended  
A man is a man, even after the image  
Wait, you can't tell me this world ain't confusing!  
Drugs got niggas dealing with it, do you niggas even pay attention?  
What are you rap niggas doing?  
That ain't cool  
The struggle remind me of the starving days  
Most people fail by only focusing on the starting phase  
Too bad they don't teach us that in school  
Cash advances, no overdraw fees to damage with the funding  
You could start a business, but can you run it?

Don't waste your life chasing money

[Hook:]

Tell them this the shit that we deal with  
But I can't deal with it no more  
Trying to get ahead  
Since he heard her give birth and raise the dead  
I mean them  
This the shit that we deal with  
But I can't deal with it no more (no more)  
Life's getting tough, I don't know (don't know)  
Don't lose control of your soul  
Tell them this the shit that we deal with  
Tell them this the shit that we deal with
