

# Devil In Disguise

Dizzy Wright

Oh, nigga  
I feel like Mike Tyson bitin' a nigga ear off or somethin'  
I'm feelin' crazy

This one for all of the niggas that ain't heard of me  
Said that cause I keep on growing but they want the early me  
Let's get dirty the floor I'm kickin' out sanitized  
I bring the plan alive, you sit back and analyze  
Camera fly for the pics but I'm in my element  
Can't downplay me, you tryna insult my intelligence  
I believe in me  
Trees with no fruits won't even lay the speak  
I told 'em I can't fall off, I got a different peak  
If loose lips sink ships whatchu think I'm gon' think?  
How you think I'm gon' move?  
I could feel the ill attempt where issues get pursued  
Money don't solve everything but my success became the glue  
The more I read, the more I learn you gotta have the clues  
Clean money, I like when the dollar bills is blue  
Workin' on myself I had to make the better choice  
'Cause if not, the devil come disguised in your voice

Keep your mind on the right track, fight back  
'Cause if not, the devil come disguised in your voice  
I can't just be lettin' life pass, can't crash, think fast  
When the devil come disguised in your voice  
Keep your mind on the right track, fight back  
'Cause if not, the devil come disguised in your voice  
I can't just be lettin' life pass, can't crash, think fast  
When the devil come disguised in your voice

I might be the illest since 2020 me  
Stay a loner cause the devil loves company  
They'll wait for leaves to fall from the money tree  
I'm watching seeds that I planted grow right in front me  
I just wanna live comfortably, don't fuck with me  
I ain't even wanna kill 'em, this reluctant me  
Mr. I don't even try, that better apply to your luck with me  
Or I might open curtains on your puppetry and treat Gepetto strings like cel  
lo strings  
Goodbyes hurt, but beware of what a "hello" brings  
Waddup  
Movin' cautious, choosing friends can be like choosin' coffins  
Ain't losin' often except for sleeps turned to unruly tossin'  
I stay at war with the devil inside  
I win either way, I guess there's that devilish pride  
I see you  
But is that growth or just a better disguise?  
Forever fightin' back, every time I write a track  
Waddup

Keep your mind on the right track, fight back  
'Cause if not, the devil come disguised in your voice  
I can't just be lettin' life pass, can't crash, think fast  
When the devil come disguised in your voice  
Keep your mind on the right track, fight back  
'Cause if not, the devil come disguised in your voice

I can't just be lettin' life pass, can't crash, think fast  
When the devil come disguised in your voice
