

End Of Times

Dizzy Wright

[Verse 1]

At the end of the night... It's the end of your life...
And now you know it's coming how you gonna spend it tonight...
I'm shedding my light

We living in a world of pain... Children no Mommas no Daddies..

.
Momma why have me if you didn't want me, To hold me and grab me
tell me you love me

Make me feel like a man. You left me in hands that wasent my blood... I do not understand

I'm a part of your gut you fucking slut. Now I'm fucking bruised and I keep fucking up it's lose lose

When you living in sin from not having much, I'm trying to stay focused but this negative shit it just calling me

When it gets tough I'm constantly smoking, They want me to slow it down but I'm speeding it up

Lord

[Hook]

Please forgive me for my sins, I committed to attend conversations you are in, Lord

I know they don't understand me spreading your message through my blood, Take these words you are my family lord

[Verse 2]
