

Found My Way Back Home

Dizzy Wright

I been gone to long now I'm where I belong now
I finally found my way back home
Where I can be the real me somewhere they can feel me
I finally found my way back home
(Home) I'm coming home
(Home) I'm coming home
(Home) I'm coming home
I finally found my way back home
(Home) I'm coming home
(Home) I'm coming home
(Home) I'm coming home
I finally found my way back home

History starting to reconnect me
The more I learn the more I become stress free
All the knowledge I'm gaining is coming with speed
Hell on earth we was searching for quick breeze
You got the power but they using you to mislead
We gone write the 16s while they pull strings
When you come from nothing it feel like a good thing
Heart beaten when you see ya face on a full screen
Let me show you how to control a race
Makem think where they come from is unsafe
Promote hip hop it'll teach self hate
The scared us now my people point the gun one way
Heard it all but we far from the fall
We evolve but we are who we are
I feel we been doing everything wrong
West Africa I think it's time to come back home

I been gone to long now I'm where I belong now
I finally found my way back home
Where I can be the real me somewhere they can feel me
I finally found my way back home
(Home) I'm coming home
(Home) I'm coming home
(Home) I'm coming home
I finally found my way back home
(Home) I'm coming home
(Home) I'm coming home
(Home) I'm coming home
I finally found my way back home

I just need to know more about me
They gone try to tell me that's it random
I had realize where I come from
Yea we coming back for the answer
More than just young black handsome
Every day my mind has in expansion
I understands it's hoods that we gang bang
But where was yo people before the slave trade
African American that's what they call us we the shot callers
Somebody getting paid tonight
I'm on the highway tapped in listen to the gwalla
This energy could save ya life (think twice)
2 wrongs don't make it right (think life)
Came off them boats now we taking them far flights

Better pack ya bags the passports on sight

(Home) I'm coming home

(Home) I'm coming home

(Home) I'm coming home

I finally found my way back home

(Home) I'm coming home

(Home) I'm coming home

(Home) I'm coming home

I finally found my way back home
