

God Body Brothers

Dizzy Wright

I'm with my God Body brothers
This is a space where Black people love each other
This is a space that you could treat like therapy
This is a safe space to share our similarities, ay, don't trip
I'm with my God Body brothers
This ain't a place for that melanin destruction
This ain't a place that you could come and knock your own kind
If she a queen and you a king, then we should both shine, ay, don't trip

I'm in my God Body, did a whole lot to reform this
I had to make some big decisions as quick as a coin flip
I look at the self-destruction, I know they enjoyin' this
Bein' a artist, they just care about who you got songs wit
Shift the energy to family and friends, but it's consumin' if it's negative
I learned that that could ruin a man
I need to sleep better, honestly, I need more rest
Cuz they ain't puttin' up no fights that ain't at they doorsteps
We stuck in a loop
If this the Matrix, then I guess I'm unpluggin' your tubes
Let you see life for what it really is, readin' the clues
'Bout the inner work, but our history at jeopardy too
What's the bigger picture worth if it's nothin' to you?
Questionin' everythang, includin' my sanity, dawg
"Land of the free", but look where it landed us all
A lotta Jims didn't get to see the planet evolve, this not scary to y'all? Y
o

I'm with my God Body brothers
This is a space where Black people love each other
This is a space that you could treat like therapy
This is a safe space to share our similarities, ay, don't trip
I'm with my God Body brothers
This ain't a place for that melanin destruction
This ain't a place that you could come and knock your own kind
If she a queen and you a king, then we should both shine, ay, don't trip

Stuck in a place where the sun evades
I'm a dark cloud as the obstacle blockin' my vision
With some light I could find my beginnin's are bright
[?] knife, I'm the sharpest in kitchen
Mi no fill up to left or right, that precaution is wisdom
Mi read a book, said human life, all its starts and beginnin's
Had come in place in the womb of a chocolate-skin darker than copper woman
I got this vision where we all communin'
And I ain't gotta carry the Jim, cuz I been a Truman
I been a human (Go tell 'em), though they ain't treat me like it (Go tell 'e
m)
I been a rose in concrete (Go tell 'em), I been a little ficus (On God)
I been a real nigga, been a sinner, been a righteous ([?])
Or was it beneficial, like Eden's fruit, the ripest?
Devoured in the garden, don't look a snake in its iris
Cuz it can bite us, straight to a trap it's gon' invite us
I got plenty that's locked behind a wall like [?]
But when I need to find the peace in silence, I just get

With my God Body brothers
This is a space where Black people love each other

This is a space that you could treat like therapy
This is a safe space to share our similarities, ay, don't trip
I'm with my God Body brothers
This ain't a place for that melanin destruction (Nah)
This ain't a place that you could come and knock your own kind (No, it ain't
)
If she a queen and you a king, then we should both shine (Word, word), ay, d
on't trip (Word)

Conversations with God and my wife, we divin' in scripture
Openin' blinds, invitin' the light to shine where it's dimmer
The role reversal, son of a gun been talkin' in triggers
With his Christian brothers providin' proof outside of the liquor
Mentally transitionin' to a king from a nigga
Evolvin' from the basement, escapin' [?]
See Ozzy been a wizard, my spirit on Burj Khalifa
The top dog had my soul [?] they usin' scissors
Cut the parts of me I harbored like that [?]
He dropped the bomb on me (Boom) and left the rubble in a place
Where ego haunted me, I pulled the trauma through a grind in me
And now they know the God in me developed through the gardenin'
These convos with my brothers (Brothers) broke the grave in half
When I was halfway goin' under (Under), the type of bond to supersede connec
tions to a mother
I mean [?] 97 if you ask me who I'm with

I'm with my God Body brothers
This is a space where Black people love each other
This is a space that you could treat like therapy
This is a safe space to share our similarities, ay, don't trip
I'm with my God Body brothers
This ain't a place for that melanin destruction
This ain't a place that you could come and knock your own kind
If she a queen and you a king, then we should both shine, ay, don't trip

Look, my character heavy, dawg, I'm breakin' the scale
God Body got 'em checkin' for nails
Before you cross me, better look both ways
My energy B-I-G, boy, I walk by faith, as I reflect on that one time
[?] then beat them odds like Drumlines
All I had to do was plan it out, now there's sunshine
Ain't talkin' zodiac, but God gave me one sign
[?] now I'm savin' my bloodline
I'ma be positive now
Left the negatives, now I'm developed with confidence now
Leadin' the people, tryna show 'em we equal
All they wanna do is draw a line, like causin' division
The aftermath ain't religion, Lord is higher than that
Arm Leg Leg Arm Head, disposin' the cap
Yeah, this deeper than rap, this straight from the soul
I got God in my body, now I'm never gon' fold, you know, I

I'm with my God Body brothers
This is a space where Black people love each other
This is a space that you could treat like therapy
This is a safe space to share our similarities, ay, don't trip
I'm with my God Body brothers
This ain't a place for that melanin destruction
This ain't a place that you could come and knock your own kind
If she a queen and you a king, then we should both shine, ay, don't trip
