What we doing? Counting money

Plotting on some more, in control

Thinking bout how I'm gon fit these [?] since I let go

Man it's way too hot in this bitch

I'm just kicking back, taking notes like [?]

Never been down with sitting down broke

But all money ain't good money, niggas know

Now it's time to reload, y'all looking at an icon

Watch out for the snakes bro, homie turned into a python

Any way I can get it I will

All in when I enter the field

Undrafted, unreal

If you fucking with me that's a steal

Seen the world, that's a positive thrill

No my son not a part of the deal

Niggas love to see one of us fail

I know what I see when I'm in the mirror

King status, that's the status quo

An ordinary man's an average Joe

Gotta stay clean on you hoes

Don't blame me, you know how the game goes

God damn I'm...
