

# I Been There Too

Dizzy Wright

Compliments of Chef Boyardee

Watching everything flow then the money start gettin' kinda low  
Yeah I know man, I been there too  
Yeah you had some big goals but you out here doing little shows  
Yeah I know, I been there too  
When you know that your album so cold  
But your story not really being told  
Yeah, I been there too  
Screaming "Fuck everything," never fold  
I'm not putting my dreams on hold  
Yeah, I been there too

Yeah, I been there too  
Yeah, I been there too  
Yeah, I been there too  
Yeah, I been there too  
Yeah, I been there too  
Yeah, I been there too  
Yeah, I been there too  
Yeah, I been there too  
Yeah, I been there too

When I came in this game, I came to ball  
No manager, no labels, I'm doing it all  
Word of mouth was my method, something you should install  
When they looking for the real, I'm the one they call  
But I'm slipping, falling, I can't get up  
Build a black wall street, they might take it from us  
Wanna change my momma life but I ain't make it enough  
Made it this far, wonder if it's patience or luck  
Yeah I been there too, cash ran out, had those doubts  
Made flyers, tryna take that route  
Yeah I'm just like you, big ass dreams  
Tryna build a team while you sitting there smoking on the couch

Watching everything flow then the money start gettin' kinda low  
Yeah I know man, I been there too  
Yeah you had some big goals but you out here doing little shows  
Yeah I know, I been there too  
When you know that your album so cold  
But your story not really being told  
Yeah, I been there too  
Screaming "Fuck everything," never fold  
I'm not putting my dreams on hold  
Yeah, I been there too

Yeah, I been there too  
Yeah, I been there too  
Yeah, I been there too  
Yeah, I been there too  
Yeah, I been there too  
Yeah, I been there too  
Yeah, I been there too  
Yeah, I been there too  
Yeah, I been there too

Though they slept on the kid and I will never forget  
Now every time inside my hands is where my problems exist

They give you cash for contracts, that's a confident mix  
We live and learn but I know I fell for a lot of the tricks  
Ain't it crazy how I did this a positive twist  
You have to go through shit to be as solid as this  
But I'm not always in the mood  
Discouraged when I'm not the improved  
Let me know if you been there too
