

I'm O.K.

Dizzy Wright

I'm still moving through the rain
Through the fire, through the pain
I been down, I been drained
I'm okay, I'm okay
I'm still moving through the rain
Through the fire, through the pain
I been down, I been drained
I'm okay, I'm okay

Comfortable in my workplace
Drained 'cause I know I need more space
It was times that this shit wouldn't correlate
Focusing on the income
Now I'm gonna get it and then some
No time for me playing the victim
I'm watching these doorslams
Fucking up my vision, my core plans
Is it happening to me or for the man?
Born again in a sense
A second win make 'em pretend to forget
I taught myself you can't be living like this
Intentional moves
You on the right track, no need to feel what you do
I know some days come off way tougher than the rest
And yeah I fell for the games like humans would do
Just remember you pushed through when you had less
Universally guided, you gotta see it through
The people's champ, all you gotta do is do your best
I been down, I been broke
I been drained, insane, but guess what?

I'm still moving through the rain
Through the fire, through the pain
I been down, I been drained
I'm okay, I'm okay
I'm still moving through the rain
Through the fire, through the pain
I been down, I been drained
I'm okay, I'm okay
