Dizzy Wright

Uh, Back up in your face again  
Living for the moment you better take it in  
Yeah I know my paper thin  
The shit I say'll help you save a friend  
Tell em' quit bitching and start making plans  
I don't sit around baby sitting  
You want to sit around being broke well I ain't hanging with you  
We comfortably complain  
Ain't no thing to niggas we use to it  
We see somebody hurting fuck them we YouTube it  
We, free niggas need to think bigger  
Small talk and I don't need niggas  
We a dying breed  
Don't follow me because I'm as cool as it gets  
Follow me because I'm fully equipped  
Let me ring a bell  
I told my daddy I don't never wanna see a jail  
Disturbed, rolling herb with dirty finger nails  
I'm a keep living till they bury me  
But it's scary cause I'm seeing who they compare to me  
I'm still soul searching

Hip Hop  
Dizzy Wright Nigga  
Hip Hop  
Keep it impeccable  
Hip Hop  
Yo keep it impeccable  
You ain't hip hop if you ain't sayin' nothin'

Uh, Verse two and I'm back at it  
You rap good but you lack passion I can see the flaws  
Learn from them I don't seen it all  
Triflin' Nigga, I was raised around folks who couldn't keep a job  
Never judge cause it was what it was  
The sheltered nights when I was cuddled up with my blood  
When all we had was us and we use to discuss  
They complain about what they got we complain cause it's not enough  
I wish, I didn't have to ask for more  
And going backwards was the last resort  
Can you feel that  
Uh, it's natural for me to spill it out  
Lead by example man, chill it out  
No need for the bitter rout  
I know we come from different worlds  
But it's cool to be a student to the ins and outs, yeah  
Beyond all the power and the pressure  
We agree to make a effort for the better
