

Make It Make Sense

Dizzy Wright

MJ 45 how I came back
Locked up yea we threw away them wave caps
Big stepping over niggas sense the dreamcast
I told em that I'm him this a Heem bag
I need the same respect that Hakeem had
I like it when she smile wit her mean ass
Oh you tryna be the queen to my king pad
From the other side all you see is the green grass
Make it make sense make it make sense
We don't brag about no bodies
That's a case built
It's only when the cop's kill us that the race shift
No love in your heart then you gone prolly hate this
Make it make sense make it make sense
We don't brag about no bodies
That's a case built
It's only when the cop's kill us that the race shift
No love in your heart then you gone prolly hate this

Don't shoot the messenger someone had to say it
Don't offer me no good time I just might take it
Shit ain't been right but tonight life is what you make it
Hear to free my mind don't mind me if it's contagious

Back to back they gon' exam me
Hate when I act to black they can't stand me
Fuck watching what I say
Go try to ban me
I need me a moesha like brandy
Is hip hop even what it use to be
The world got soft and the culture got brave
Now they giving out bags so they can stunt the wrong way
Then you put on toy drives and you tryna feed the homeless
Cause you tryna make up for that music that you made

Don't shoot the messenger someone had to say it
Don't offer me no good time I just might take it
Shit ain't been right but tonight life is what you make it
Hear to free my mind don't mind me if it's contagious

Don't shoot the messenger someone had to say it
Don't offer me no good time I just might take it
Shit ain't been right but tonight life is what you make it
Hear to free my mind don't mind me if it's contagious
