

Melinated Kings

Dizzy Wright

Nice to meet you, Mr. Freeze

Never not workin' but you never on the scene (Never on the scene)
Peace to the queens rockin' with the melinated kings
And she told me, "Get to the money, black man" (Black man)
"Get to the money, black man" (Black man, black man)
Never not workin', never, never not (Never not)
Get to the money, black man

She gon' give it all up for the lifestyle
Slide in, slide out, hit the wipe down
Me and Freeze finna take y'all to the ice lounge
Shout out to the fans holdin' Brother Wright down
Knock it out the park, knock it out the park
I can still feel that ass even with the lights out
If the world is shiftin', let me shift with it
She movin' fast, I'm tryna stick with it
Young kings out here tryna boss up (Boss up)
Turning girls into queens, it's a toss-up
I hope when you need somethin' that won't be the only time that you call me
You know I know that God is in all us
If I can feel the love then that mean somethin'
I probably wouldn't rage out there
And seen the whole damn world, I still feel like I ain't seen nothin' (Right
)
But I ain't come back the same man
Ain't got no other man
Eye contact for shots, we pour Henn'
Jay Rock, K Dot, they said we gon' win
Don't play yourself tryna be a troll for your friends or the hoes in the stands
Never not workin', never, never not (Never not)
All day, forever locked
I told her sometimes you gotta be able to move without the ball to get a better shot
And I'm

Never not workin' but you never on the scene (Never on the scene)
Peace to the queens rockin' with the melinated kings
And she told me, "Get to the money, black man" (Black man)
"Get to the money, black man" (Black man, black man)
Never not workin', never, never not (Never not)
Get to the money, black man
Never not workin' but you never on the scene (Never not, never not, never not)
Peace to the queens rockin' with the melinated kings
And she told me, "Get to the money, black man" (Black man, black man)
"Get to the money, black man" (Black man, black man)
Never not workin', never, never not (Never not)
Get to the money, black man

She don't wan' be with no likkle boy, she want big man
Wine your fat body, you're leanin' pon me like a kickstand
Aye, yah, yah, yah, yah, yah (Yeah)
Aye, yah, yah, yah, yah, yah
She told me, "Man, the girls the same, they stay at you"
But they're not on my mind, I'm just tryna spend time with you, girl

Aye, yah, yah, yah, yah, yah (Sexy)
Aye, yah, yah, yah, yah, yah
Fat body, fat body, girl let me work ya
Your body, your body, your body's murder, yeah (Knife)
No one, no pair runnin' in don't concern ya
Me and my queen keep it hot like a furnace
'Cause usually she's a hustler like me
She know how to run it up like me, yeah
Back when I was tryna stack that cash up
She was rockin' with me, oh yeah, that's my bad gyal
Only one for me
Tutu, you're the only one for me
Gyal, you look good, won't you back that ass up?
Freak in the sheets, but in the streets, got class, yeah

Never not workin' but you never on the scene (Never on the scene)
Peace to the queens rockin' with the melinated kings
And she told me, "Get to the money, black man" (Black man)
"Get to the money, black man" (Black man, black man)
Never not workin', never, never not (Never not)
Get to the money, black man
Never not workin' but you never on the scene (Never not, never not, never not)
Peace to the queens rockin' with the melinated kings
And she told me, "Get to the money, black man" (Black man, black man)
"Get to the money, black man" (Black man, black man)
Never not workin', never, never not (Never not)
Get to the money, black man

A melinated king tryna live out this American Dream
But it's better when you know you got a mack (Sheesh)
Did it by any means, shout out to all of my queens
That'll push you to be great, make you wanna never slack (Yeah)
It's hard to relax when it's so much that you need
Don't need much in life, I just need to succeed
Look at my family tree, it's already been installed
Your body demandin' to get on you like overalls
I'm just tryna catch a vibe with you, vibe with you
Gettin' high, oh you finna leave? I'ma slide with you
I'm surprised
'Cause we all have certain tendencies off the Hennessy
But she said fuck it, I'ma ride with you
I know the labels might change shit, and the language
Might switch up but this the life that I came with
Fame ain't nothin' but a bonus that I gain
But without real love, you ain't gain shit
I ain't tryna tell you what you wanna hear (I mean that)
Girl, you fine, bring that ass over here (I mean it)
Love the person lookin' back in the mirror
Yeah, that's what she whispered in my ear (Right)
We connectin' and you can't interfere
Lookin' like I won the championship game of the year (Uh-huh)
Need a village that's gon' raise you to be strong
When you black, better show them you belong where you at
She love it 'cause I'm

Never not workin' but you never on the scene (Never on the scene)
Peace to the queens rockin' with the melinated kings
And she told me, "Get to the money, black man" (Black man)
"Get to the money, black man" (Black man, black man)
Never not workin', never, never not (Never not)
Get to the money, black man
Never not workin' but you never on the scene (Never not, never not, never not)
