

Memory Lane

Dizzy Wright

Hahahaha, superb

Mentally drained, falling in line
Going down memory lane (Going down memory lane)
Nothing that I could rewind
Nothing that I could've changed
I fall for this every time (I fall for this every time)
Mentally drained, falling in line
Going down memory lane (Going down memory lane)
Nothing that I could rewind
Nothing that I could've changed
Fall for this every time (I fall for this every time)

Mad that I made some mistakes and carried that weight
But ain't nobody asked me if I was straight
I just got way too much shit on my plate
How you gon' lie to my face?
I had some opportunities to flake
Family got me feeling super betrayed
That's on my granddaddy and grandma grave
I've been mentally drained and I needed some time
Can't be out here wasting money like fuck it
The niggas that worked for it helped me with mine
Calling my phone telling me I don't listen
They say you switched up when they don't get a dime
Not in a place to be rational
Don't hit me up, I'm in battle mode
No one to hit up when I'm mad or low
But I never trip but I'm making this 'cause it feel different this time
And I wish my love was the unlimited kind
Unconditional love, people searching for that shit like a drug
Told myself I had to look out for me
If you feel depressed you got bit by the bug
I had to tell 'em that nothing is free
I wish I could give y'all a little bit more but I can't if I'm always
..

Mentally drained, falling in line
Going down memory lane (Going down memory lane)
Nothing that I could rewind
Nothing that I could've changed
I fall for this every time (I fall for this every time)
