

Midnight

Dizzy Wright

Came with the energy what you gon' do wit it
She just want to dance and you know I'm cool wit it
Don't trip baby this a vibe check
Can't even tell you where I'm bout to fly next
But you can put your number in my contacts
I'm hoping that's not taken out of context
Eye contact we ain't even bond yet
Instantly I can tell where your mind at
Tell me what you want what you really want (yea yea)
If I'm making the choice you the better one
Can't play it safe or they will never come
Crazy how it took 10 years to get on a run
But I got a lot more to say I done overcome things
Why jumping in the league if you don't want rings
Tell me what it is tell me what it ain't
I'm not acting like my shit don't stank
I'm just saying

Let me talk to 'em
Oh it's midnight
Let me talk to 'em
Oh it's midnight

Blunt smoker I keep the get right
She was stuck on my hip by midnight
Her homegirls is telling her live life
I guess when it's good this is what it feels like
The night got crazy when I met you
Not looking for a lifestyle to rescue
It's a whole lot of money that I'm next to
The way you actin' we gon' end up in that bedroom (look)
Stop playing wit me
In the club in my ear what you saying to me
Don't try to tell me what I wanna hear
You don't gotta gas me
It's better for us both if you keep it all G
Can't be side track by this lil freak (on me)
Niggas crash out from a small leak
I ain't going my nigga no way
But we gon' party to the next day
I'm just saying

Let me talk to 'em
Oh it's midnight
Let me talk to 'em
Oh it's midnight
