

# Now Or Never

Dizzy Wright

Ay yo Poetics bring the drums in

I know some local parties that got wet up  
Niggas made bands with shit ain't getting better  
I got too many niggas with whatever  
They wouldn't even dare to let me let up  
Try not to let that pussy get you set up  
I took a step back had to stack my bread up  
I'm hearing Tupac tell me keep my head up  
Living a life they wanted now I jealous  
Niggas is really talking who you telling  
Can't comprehend the words you niggas spelling  
I look around this shit get overwhelming  
I look around this shit get overwhelming  
Ain't been the same since I lost grandma Hellen  
I got voices in my head and they yelling  
We ain't buying the life they selling  
And I ain't trying to end up no fellow  
My nigga it's

Now or never (Ayy)

Foot on the pedal watch all my niggas we gon' ride forever (Skk)  
I done went two steps back sometimes that's trial and error (Trial and error  
)

Don't matter what happen just know God keep me and mine together (Mine toget  
her)

Now or never (Ayy)

Foot on the pedal watch all my niggas we gon' ride forever (Skk)  
I done went two steps back sometimes that's trial and error (Trial and error  
)

Don't matter what happen just know God keep me and mine together (Mine toget  
her)

85 in the car pool, got the kids watching cartoons  
The big brain in the small room and we don't settle for dog food  
Yeah I like to drink but don't ever think I won't kick your ass out that bar  
stool

You see me I play it all cool  
But I can charge up if I got to (I got to)  
These is the lenses we watch through  
Don't follow popular opinions  
My bounce back is resilient  
[?] still moving on a building  
Now my mind on a couple million  
These old schools still winning  
Rebuild new engine I'll be back when it's finished

Now or never (Ayy)
