

Progression

Dizzy Wright

I hope you good with what you got
'Cause the whole world think outside of your box
Nigga, think outside of your box
Don't be begging for no help
You got this, got a build something for yourself
Gotta build some for yourself
Even if you don't see it in your vision
Going hard, all you need to be is consistent
Niggas gotta be consistent
And when they try to bring you down
Turn around, you turn it up and then hold it down

Rapping 'bout my life
Rapping 'bout the life they seem to like
I like these nights but on my life I ain't the type
That wanna kick it with the homies all the time
Sit around wasting time, whenever everybody wanna shine
Niggas is going blind, obviously 'cause we ain't moving the same
We been stuck in one place, but we ain't doing a thing
It's time to think outside the box you staying true to your name
The image you trying to resemble gonna have you going insane
I'm trying to think different, my hidden gifts, I know they exist
It's a whole world, you just need a list and know they exist
I mean the fist that I be holding is a token to these younglings
So in faith for you to appreciate the blessings you got coming
You don't see them yet, all good, he wake up like he don't know need a check
We just wanna live and learn, progression for my people back
I see the traps, legal craft, they quick to hold us down
That's why I'm in my Trayvon hoodie with a smile
And I'm here to let the world know

I hope you good with what you got
'Cause the whole world think outside of your box
Nigga, think outside of your box
Don't be begging for no help
You got this, got a build something for yourself
Gotta build some for yourself
Even if you don't see it in your vision
Going hard, all you need to be is consistent
Niggas gotta be consistent
And when they try to bring you down
Turn around, you turn it up and then hold it down

Hey, yo, fuck the media, they twisting, turning the truth
Give this bitch some pieces of the proof, making it cool
I mean what's giving to these kids is cruel
And I'm unsure if they'll accept the lyrics we endure
Now moving forward a little more in detail with the Yeah, you record but hav
e you ever open other doors
I mean explore us but then there's more then what you niggas think
That quick money got y'all moving at that nigga pace
I want y'all to open your minds spread your wings and prosper
You too worried about what niggas think 'cause shit get awkward
Niggas know I been there before with a rep to obtain as I strain to grow
With nothing to show but a new change of clothes
But we was learning life, experience shit that almost earned my life
I seen that cop beating my nigga, I felt hopeless with a burning knife

Had I hit him with a right, I wouldn't be here on this mic
It's just a sign that our blessings gonna over shine
And you my nigga

I hope you good with what you got
'Cause the whole world think outside of your box
Nigga, think outside of your box
Don't be begging for no help
You got this, got a build something for yourself
Gotta build some for yourself
Even if you don't see it in your vision
Going hard, all you need to be is consistent
Niggas gotta be consistent
And when they try to bring you down
Turn around, you turn it up and then hold it down
