

Promoter

Dizzy Wright

Ooh yeah
Whoa whoa oh whoa whoa
You get a bus slip, from me no respect
We never stop say, but you nah hear yet

I wanna tell you something about why I promote marijuana, whoa
I wanna tell you something about why I promote sinsemilla, tell it to them
I wanna tell you something about why I promote marijuana, yes
I wanna tell you something about why I promote sinsemilla, listen to me

'Cause nothing's wrong with it, for the folks that don't get it
You on the wrong side of history judging for bong ripping
This more natural than all that fast food in your system
It's a godly plant, use it as medicine, they convict 'em
That's some bullshit but I'm not the type that's gon' play the victim
I just carry on, yeah, I admit I could do better
But these good vibrations always outweigh whatever, can't settle
Take a puff and that's usually enough to get me together
But this Dizzy OG brand I got, real killer pack
All the flavors that's from everywhere, Vegas to Chilliwack
If you been locked up for the bud I know them years can't be given back
Private prisons is overpacked but we got you and that's a fact
We ain't stopping till them records get expunged
We need weed legal everywhere, somebody get it done
If I'm good in my city he should be safer where he from
You not better than me 'cause I like to keep smoke in my lungs, hear me out

I wanna tell you something about why I promote marijuana, whoa
I wanna tell you something about why I promote sinsemilla, tell it to them
I wanna tell you something about why I promote marijuana, yes
I wanna tell you something about why I promote sinsemilla, listen to me

I got a bag with your name on it, look closely
You could see I wrote "We don't smoke the same" on it
Now put the flame on it and make the game want it
If you got it, you ain't gotta be ashamed, flaunt it (come on)
Once upon a time they would persecute and prosecute ya
Kill your future in an institution that'll suit ya
Now it's flipped, they embrace it, call it Cana sutra
You got genetics in the brand and they come recruit ya
I got a finger for 'em, you could post it in the forum
I don't show 'em no decorum, fuck 'em, I ignore 'em
You can't compete with the insane bag of heat
Hear it on the street, buy a bag and then repeat
You ain't gotta be discrete, go on smoke the loud, smoke it proud
Dizzy blowing out a cloud, I'm about to hit it now
You ain't gotta be discrete, go on smoke the loud, smoke it proud
Dizzy blowing out a cloud, I'ma hit it now

I wanna tell you something about why I promote marijuana, whoa
I wanna tell you something about why I promote sinsemilla, tell it to them
I wanna tell you something about why I promote marijuana, yes
I wanna tell you something about why I promote sinsemilla, listen to me

Good marijuana make you remember
How to hold on together
How to love one another

Help each other live a likkle longer
It make you know 'bout your culture
So even if you come from all over
Anytime you smoke high-grade ganja
[?] starts in Africa
Destruction alone caused from all the money, man
[?] evilest plan
The people don't get the rights [?]
[?] them pockets, they lined with prescription
Something to make them sleep, something fi rising
Something fi sort them out and organize them
But me never look no cure from Babylon
Prefer the grave of Solomon

I wanna tell you something about why I promote marijuana, whoa
I wanna tell you something about why I promote sinsemilla, tell it to them
I wanna tell you something about why I promote marijuana, yes
I wanna tell you something about why I promote sinsemilla, listen to me
