

# Rolled Right

Dizzy Wright

These blunts burn slow if they rolled right  
We gon' keep it going for the whole night  
And don't be scared for your whole life  
I'ma get it now, we don't live twice  
These blunts burn slow if they rolled right  
We gon' keep it going for the whole night  
And don't be scared for your whole life  
I'ma get it now, we don't live twice, nah

Break down the weed, pass it to [?] he roll it up  
Smoke enough  
Your Backwoods keep breaking 'cause you don't roll enough  
[?] yeah that's the golden touch  
Indica keep tapping your chest just like a golden glove  
I've been down like the ground way before the love  
And we always smoking out the club, yeah you know it's us  
I'm always sleeping on the plane before I sober up  
Say he got that fire then I see it, shoulder shrug

Dropped the prices on the runner up, we gon' run it up  
Give the drummer some, onto another dimension  
I do it, I'm not attempting, ain't easy to attention  
Too many plugs with no power  
Doing all I can in the span of 24 hours  
They say balance is the key of life, blaze the flower  
Lesson learned, she ain't like the woods until the second turn

These blunts burn slow if they rolled right  
We gon' keep it going for the whole night  
And don't be scared for your whole life  
I'ma get it now, we don't live twice  
These blunts burn slow if they rolled right  
We gon' keep it going for the whole night  
And don't be scared for your whole life  
I'ma get it now, we don't live twice, nah

We don't live twice  
This a scheduled execution, killing everything  
If you can't twist it let me do it  
No response is the response  
She slid the rolling tray over my way and kept it calm  
Hit a blaze to relax, I can't lie, it's like a vibrational mash  
Conversations 'bout how our president is bringing racism back  
This shit get deep and I'm willing  
They say you attract what you feeling, so I'm chilling  
And they say time is revealing  
So shit, I'm tryna stay on my toes  
Can't fake it or my intuition will know  
She said she'll move at my speed  
Top down, we enjoying the breeze  
This is anything you want it to be  
Good weed, good conversation, good vibes  
We don't ever complicate it, it's between you and I  
We ain't even medicated, this a natural high  
But hold up, hit this one time

These blunts burn slow if they rolled right

We gon' keep it going for the whole night  
And don't be scared for your whole life  
I'ma get it now, we don't live twice  
These blunts burn slow if they rolled right  
We gon' keep it going for the whole night  
And don't be scared for your whole life  
I'ma get it now, we don't live twice, nah

Hey man, I can do it again man  
Let me do it again  
Give me another one  
Give me another joint
