

# Self Love Is Powerful

Dizzy Wright

I apologize if I hurt you along the way (For real)  
Self love is powerful, heard it's the only way (Word)  
Self love is powerful, heard it's the only way (Word)  
Drownin' in my thoughts, what if I lost it all today? (Nah)  
Never slowin' down 'cause dudes gotta be paid (Right)  
Self love is powerful, heard it's the only way (Word)  
Self love is powerful, heard it's the only way  
That's the motivation I need to keep makin' plays

All that energy got put in to keep us from education  
Now I identify with them brothers locked in them cages  
Yo, don't go back, that's a different way to enslave us  
Pickin' up the path that my ancestors paved us  
Nothin' to lose is the mindset we seem to move with  
The world improve when they fill us with more confusion  
We kill each other more than the KKK movement  
Knowledge is power when you in that courtroom clueless  
Crazy how I learned from all my brother mistakes  
Carried all the traits 'cause the neighborhoods wasn't safe  
I'll just move a little different and I'll be straight  
But I could never prepare for the problems that I face  
Eat better, drink water, think better  
Feed the mind information, it's a spiritual invasion  
No more moments with my confidence deflated  
Is what I tell myself and I'm not renegotiatin'

I apologize if I hurt you along the way (For real)

Practicin' Islam just hopin' it make us better  
Trapped inside these trenches, it's hopeless for us forever (Yeah)  
Dad was on my sweater, that Beretta necessary (Ayy)  
Too much for moms bear and he too young for us to bury  
Them caskets had to carry was mainy 'cause it was real life  
He was just here now he layin' in that field, like  
You seen 'em target blacks for that crack epidemic, real life  
Them prisons only built for us niggas, this shit is still trife  
It's real life, learn to love yourself, nigga, that's real love  
The hatred never penetrate either, ain't no steel love  
Old girl he fed his gang, already run through the and ones  
Fuck who talkin' down, it ain't slowin' down, we still love  
Drownin' in my thoughts, if I lost it, I'd probably kill somethin'  
Self-inflicted pain, quit tootin' and poppin' pills, youngin  
Self love is power if you ain't never learned nothin' from us  
Self love is power if you ain't never learned nothin' from us
