

# Share Life With You

Dizzy Wright

Look, I need a partner not an enemy  
Don't bring me down with all of that negative energy  
If you a friend of me, show it  
Dedicate effort, show me I'm yo man and tell me you want this forever  
Tell your friends I'm the one  
Go to sleep and dream about me  
When you in the shower, enjoy and imagine a scene about me  
Pray for me, make decisions with me  
Don't talk behind my back and try to turn people against me  
Make me feel like I'm a king, the dream Martin Luther had  
The feeling Bobby had and Whitney used to have  
For the first time, like your first rhyme, in first grade  
Don't make me feel like the new kid on his first date, awkward  
I'm an imposter to love, and it's crazy just to know this shit started with  
a hug  
And now our souls touch and I'm glad as shit  
Your beauty brings out my happiness, I'd share life with you

I don't think I'm falling in love  
But I know I'm falling in like with you  
I love the conversations that we have  
In the future I hope that I can share life with you  
I hope that I can share life with you  
I hope that I can share life with you  
I love the conversations that we have  
In the future I hope that I can share life with you

I need an angel not a hurting chick  
I need guidance, stability, encouragement  
I need you to take my pain away with humor  
Forget about the rumors, live life like bloopers  
Baby you the one, I hope the feelings mutual  
I know we not perfect so we got some getting used to  
Just to stay useful, I'm a try to make it right  
I'm a change what's a problem and perfect what you like  
See that's the sacrifice I decided for us  
So when they ask how we do it, we just say it's cause of trust  
We got a bond, Barry Bonds couldn't break  
I like it when you leaning in my arms through the day  
Keepin' your body close to your man, your number one fan  
The person who gon support you all the way to the end, me  
It feels so right with you, I just wanna share my life with you  
I hope you feel the same

I don't think I'm falling in love  
But I know I'm falling in like with you  
I love the conversations that we have  
In the future I hope that I can share life with you  
I hope that I can share life with you  
I hope that I can share life with you  
I love the conversations that we have  
In the future I hope that I can share life with you
