

Stackin My Chips

Dizzy Wright

I've been stackin' my chips hoping it's gon' flip
I'm still moving, this just might be a long trip
But I heard you down to be the queen of a [?]
Well I'm down for it, I'ma pick you up when you feeling down
Real niggas keep it real, can't become no push around, no

It's official, you make a good first impression they don't forget you
Some niggas like to get involved with all the issues
Oh you got a lot to say about me, bruh
But you can barely trust them niggas rolling with you
All you hear is money, alcohol and pistols
Who am I to judge? I don't know what you been through
I just wanna hear some cool shit I can learn from, maybe burn one
When money get to calling them alerts come
Telling myself I know there can be more work done
Wanted success, the problems just came with it
Was off the bench and did it like James did it
Me and these suckers can't be in the same sentence
After a long ass day I start sippin'
After a loss I'm willing to earn the winnings
Split the percentage when I'm finished, that's why...

I've been stackin' my chips hoping it's gon' flip
I'm still moving, this just might be a long trip
But I heard you down to be the queen of a [?]
Well I'm down for it, I'ma pick you up when you feeling down
Real niggas keep it real, can't become no push around, no

Let the weed burn, we not concerned
We play for keeps, it's gotta be long term
I been giving out more life lessons than law firms
You suckers had y'all chance, it's our turn
Putting these letters together like crosswords
I've learned that every nigga won't sanitize the germs
Nasty with it but the opposite of dirty
We sliding and gliding, it's still early
Mission accomplished, what's next?
I'm not missing a beat, I see the money increase
If your queen don't support you she for the streets
Match my energy, my enemies pick at the slow leaks
Unlimited hoes, but it's limit my soul reach, fucked up
What type of game you tryna teach?
I'm tryna elevate my lifestyle dog
After work I get that night cap call, shorty know

I've been stackin' my chips hoping it's gon' flip
I'm still moving, this just might be a long trip
But I heard you down to be the queen of a [?]
Well I'm down for it, I'ma pick you up when you feeling down
Real niggas keep it real, can't become no push around, no

Slidin' and Glidin'
