

# Talk to Me / Don't Hold Back

Dizzy Wright

Talk to me

I need a girl with the most appeal  
Know yourself so you know you real  
Powerful with the social skills  
Talk to me talk to me  
Work smarter and I know she will  
God faith and I'm a close the deal  
Positive with the dopest feel  
Smoke with me smoke with me

Now we in a healthy stage  
26 years and I ain't ever felt this way  
But I'm still tryna find my life purpose  
No money no options these days  
So I smoke and listen to my mentiste  
Growing might switch your agenda  
My mindset is vicious  
I do not procrastinate and I never play the victim  
Drink henney and vodka but I never mix them  
Styling now like Jimi Hendrix  
Pussy niggas in my mentions  
Where was y'all when we was jumping fences  
Now I'm months up in it  
All my east side niggas coming with it  
We done over did it  
Time is ticking  
Went from selling tickets  
Now I watch my back with what I'm telling bitches

I need a girl with the most appeal  
Know yourself so you know you real  
Powerful with the social skills  
Talk to me talk to me  
Work smarter and I know she will  
God faith and I'm a close the deal  
Positive with the dopest feel  
Smoke with me smoke with me  
I need a girl with the most appeal  
Know yourself so you know you real  
Powerful with the social skills  
Talk to me talk to me  
Work smarter and I know she will  
God faith and I'm a close the deal  
Positive with the dopest feel  
Smoke with me smoke with me

Give it to me don't hold back  
You can be you around me girl  
Give it to me don't hold back  
Yeah I know I know you ain't used to this  
Give it to me don't hold back  
You can be you around me girl  
Give it to me don't hold back  
Yeah I know I know you ain't used to this

Alive and I'm well in my whip in the late traffic

I smoke this weed when I get around  
I told my shorty to simmer down  
Jordan's good weather and ash it  
Not the first time but I feel fantastic  
Not stopping till I got bigger crowds  
I see the fake shit that they dishing now  
Don't play with me I hardly believe  
Anything anyone say to me  
Ain't no phasing me  
I'm my own king  
Look they too focused on the wrong thing  
I ain't waiting on no phone rings  
These tatts cover me like a long sleeve  
Man 9-5 ain't in no pictures now  
Keep my faith high when a nigga down  
And I told 'em

Give it to me don't hold back  
You can be you around me girl  
Give it to me don't hold back  
Yeah I know I know you ain't used to this  
Give it to me don't hold back  
You can be you around me girl  
Give it to me don't hold back  
Yeah I know I know you ain't used to this

Don't lie to yourself  
'Cause your family constantly asking  
Why you got mad and just keep it in?  
Try to focus on a deeper cleanse  
Look here I go saving myself again  
You staring but how you gon' learn the moves  
Loving my vibe and eternal mood  
I see what these suckers are turning to  
They like the flow and the concept  
She gave me head with the bomb sex  
Then we relax in the bath bomb  
She like the lunch with the contact  
I'm loving learning like everyday  
Inspire something you can't take away  
Thank you God for creating them seven days  
Then I try to come at her a better way  
Like

Give it to me don't hold back  
You can be you around me girl  
Give it to me don't hold back  
Yeah I know I know you ain't used to this  
Give it to me don't hold back  
You can be you around me girl  
Give it to me don't hold back  
Yeah I know I know you ain't used to this
