

# The Intermission

Dizzy Wright

Stepping into mind

Uh

Niggas that could stop it I ain't seeing many  
Prophecies of multi millions off the weed and henney  
Love where I'm from but I got dreams that exceed the city  
I was told to take my shot now I'm squeezing empty  
No game shoot up charts like they beefing with me  
Drop classics for the free and never seen a penny  
Stayed on course avoiding anything that lead to envy  
Niggas said they made me I'm waiting for them to reinvent me  
Don't ask questions about niggas if you ain't seen them with me  
I'm hungry like Birdman before the flee the Bentleys  
Real genius talking Basquiat me Da Vinci  
Airing out my problems should've breeze everything events see  
Grindings key man they can't knock the hustle  
Feel like I'm doing curls when a nigga lift the duffel  
I ain't worried about noise I come from outside the huddle  
Needless to say they hate the least of my troubles

Yeah the green I'm bagging fire like a breathing dragon  
My baby with the back in and know I love my salmon blackened  
Staying healthy on a punk bitch  
Pull up with a stick my Vegas niggas taught me life off the strip  
Hundred six in the shade rainy days do not exist  
Bad bitches in my DM with the slay I got a list  
Half these niggas taking credit pump fake and no assist  
That's why they getting passed up  
Yeah yeah  
And I ain't playing a psychologist  
But I can forecast rain in the club tonight like meteorologist  
See me and them is opposites  
So take your shit back with some confidence  
Stop dwelling on accomplishments  
'Cause Still Moving is the motto  
Money in the convo  
I can give you my open heart and a open bottle  
For telling you straight I've been living like there ain't no tomorrow  
And God ain't take me yet  
So ain't no baby steps  
Let them niggas live with that

I've been on [?]  
Still make the plays votes in the top 10  
Counting up to being my response to how you been  
Selling off the Benz tellilittle mama come on in  
Say she tryna win I got some game that I can lend  
24K hit your face when I grin  
My records roulette I'm cashing in off the spins  
In the stu late 2k off the hen  
Smoking Dizzy OG before it came out dispense  
I'm getting blowed  
I've been lighting and it lighting my soul  
We them guys shit they don't want you to know  
Hot boy but I swear I stick to the code  
Man it's too late to love a nigga when I'm gone so do it now  
Gave a pack and moving pounds

But I'm still moving sound  
Hating on the new edition tell them boy to cool it down  
[?] came here and my niggas rule the town

Yo

Focus on the inner circle we the half notes  
We ain't get our passports to be the mascots  
Liquor companies got involved for the cash crops  
They had a sip and now they want the last drop  
I'm get it as I'm having these sit downs with niggas  
But you can't Netflix and chill just to get down with niggas  
Yo from birth they try to tell us what the Earth is  
So we found out what the real meaning of church is  
Yo they give us certificates for their service  
But they don't care until it's urgent  
But yo I'm clean like detergent  
Yo what you trading for the purchase  
Watch what you say 'cause there some things you can't take back  
Yo

Surviving ain't web surfing  
I'm living a vivid dream yo where my super hero cape at  
I'm tryna save lives aye yo my blunt rolled up in a Golden Age wrap  
You can say that I may laps  
Made slaps and see the bread up in my chasaps  
I'm making quick plays I quick pay that  
Sold it to niggas hearing neighbors tryna erase raps  
So from 4/20 to 444 I'm only Jay slaps  
I know I presented them with potential  
I ain't Jigga I can't hit them with a title yet  
But I'll make my idol sweat  
Off the crossover dribble  
Yo my bars are going to hit them later like a side effect
