

# The Way We Live

Dizzy Wright

They been stealin' our culture for years  
We the ones with the ideas  
Tell 'em this is the way that we live  
This is the way that we live  
I heard that it's kill or be killed  
My niggas we stay in the field  
Tell 'em this is the way that we live  
This is the way that we, this is the way that we live  
This is the way that we, this is the way that we live  
This is the way that we, this is the way that we live  
They been stealin' our culture for years  
We the ones with the ideas  
Tell 'em this is the way that we, this is the way that we live

This is the way that we live  
It's my time I got somethin' to give  
We creatin' shit but didn't have the money for the funding or the fundamental skills  
Took it from us, left us in the field  
Now we back and better, smart as ever  
Fuck 'em if they tryna take it from us  
We gon' build our own shit it's now or never  
They gon' judge a young nigga regardless  
Movin' quiet, yup we louder than a choir  
Can't be out here as a target  
I be tryna tell the homies bein' [?]  
Keep it real ain't even fascinated  
To 2Pac and get assassinated  
Give us credit for the culture  
Since y'all ran with it and tried to marinate it  
Brought the '80s back on purpose  
If the laws reversed you wouldn't think that it's worth it  
Son downtown I'm in a hurry  
You ain't prolly never felt this discouraged  
I ain't trippin' look at the shit we invented  
All these Hip-Hop sounds that the legends given  
I ain't no politician but I wanna inspire a lot of difference  
Told the homie

They been stealin' our culture for years  
We the ones with the ideas  
Tell 'em this is the way that we live  
This is the way that we live  
I heard that it's kill or be killed  
My niggas we stay in the field  
Tell 'em this is the way that we live  
This is the way that we, this is the way that we live

I'm feeling like Benjamin Bradley, Benjamin Montgomery  
Black man I need my money please  
Hold up, let me name drop  
They cleaned us out and left us brainwashed

Now he in he hood, lettin' that thang pop  
And she in the hood lettin' that thang drop  
[?] in the same spot  
Young guns won't stop, no they can't stop  
Each one, teach one  
I learned the blueprint from [?] boy  
Pull up on Dizzy and chief one (smoke it up)  
Young king of Vegas right next to Floyd  
Quit the loud talk, we don't respect the noise  
I respect the action and the proof  
So don't let that pussy distract you from the truth  
See that ass clap on steppin' get trapped up in that Coupe  
Hold on, can't be a chicken tryna soar with eagles (do it do it)  
I'm on a mission to restore the people (whip it up)  
Young Price, free minded and freedom fighting  
Bring the pie to my team and we divide it up  
We never gon' win if we're divided  
I get the tree, I light it then get enlightened  
Cause the music ain't leavin' me excited  
I can't hide it, but we concocted the start to keep the cycle

They been stealin' our culture for years  
We the ones with the ideas  
Tell 'em this is the way that we live  
This is the way that we live  
I heard that it's kill or be killed  
My niggas we stay in the field  
Tell 'em this is the way that we live  
This is the way that we, this is the way that we live

The homies told me to go crazy on this  
So it's only right that I go crazy on it  
Came prepared for this, you can't be trained  
'Bout to run the game, and nothin' sprained  
So for real, candy rain  
Now we gettin dollars and demandin' change  
Fire spittin', nigga, flame flame  
Hot lava, Oktane, same thing  
This a giant to a midget, I feel Jordan off the pivot  
Most of the shit you double tap on Instagram nigga I done did it  
I really seen the world, I really lived it  
And a lil nigga got the vision  
I remember no pot to piss in  
And we sat up plottin' mission with not one spot left without the scripture  
I'm the never-sober chief that smokes the reefer  
The boy that knows your chick and blows the cheese  
But how does it do it? The never seen a nigga this fly  
Don't kiss and tell, expose the diva  
Many occasions I could've chosen singin'  
Necessity in the game, it doesn't need you  
On the one, why you throw with the close reciever  
Praise black Jesus for chosen leaders and I'm gone

They been stealin' our culture for years  
We the ones with the ideas  
Tell 'em this is the way that we live  
This is the way that we live
