

Time Don't Wait

Dizzy Wright

Time don't wait for no one girl
I've been living in my own world
And I don't need no distractions I'm gon' reach my destination
Time don't wait for no one girl
I've been living in my own world
And I don't need no distractions I'm gon' reach my destination
Oooh baby, baby
Two eyes but I'm looking out my third
I'm trying to figure out what purpose that you serve
What's the word (Ooooh baby, baby)
This little Foxy Brown trying to get a turn
If you ain't thinking long term, uh-oh uh-oh

What if the next man took my spot and this was good as it got
And I'm back to the block regretting my effort
Niggas follow what they think is hot
But if all the baggage you carry is the reason he been drinking a lot
What if you need a little more to be sane
If I expect more than me I don't think the agenda should change
I mean how else they going to remember the name
If life is like chess you got to know this ain't a individual game, damn

Time don't wait for no one girl
I've been living in my own world
And I don't need no distractions I'm gon' reach my destination
Time don't wait for no one girl
I've been living in my own world
And I don't need no distractions I'm gon' reach my destination
Oooh baby, baby
Two eyes but I'm looking out my third
I'm trying to figure out what purpose that you serve
What's the word (Ooooh baby, baby)
This little Foxy Brown trying to get a turn
If you ain't thinking long term, uh-oh uh-oh

You got the book but I can't force you to read no page
I tried that on mine fuck, we ain't speak for days
You got to know I ain't going out the easy way
But I can't settle for no freak delays I mean that's crazy to me
Let me know if you taking the lead
I'm ready to follow but if you're not ready I got the keys
10 speed don't bend don't break we both bleed
Anything else is energy we don't need
I told her

Time don't wait for no one girl
I've been living in my own world
And I don't need no distractions I'm gon' reach my destination
Time don't wait for no one girl
I've been living in my own world
And I don't need no distractions I'm gon' reach my destination
Oooh baby, baby
Two eyes but I'm looking out my third
I'm trying to figure out what purpose that you serve
What's the word?
