

# Vampire Bite

Dizzy Wright

[Hook: Man-Like-Devin]

[Verse 1: Dizzy Wright]

Kids screaming for freedom  
Presented with so much in it  
It's hard to even believe it  
Hard to handle, grew up a starvin' example  
Never panic, opportunities come and we take advantage  
These backstabbers is real easy to get to  
Play the victim or try to play the pussy that's here to get you  
Ain't no secrets, we starve when it get hard  
We fall, we don't evolve  
We ball, but not for God  
Living life where everybody got the proof  
Don't nobody want to love, cause we don't understand the roots  
Now for the whole world shifted, they better be proud  
I carry a smile, I got the devil staring me down  
See I'm illuminating, terrified like a piece of gold  
Here's a piece of mind, leave these vampires alone  
It's a lonely road, don't be seduced by a dolla  
Be patient, smoke ganja til' they honor

[Hook]

[Verse 2: Dizzy Wright]

Yo, don't try to defeat the message  
Struggle so long that I'm protectin' with aggression  
Struggle so long that I ain't focused on complexion  
I'm just trying to be that help, when it's hectic  
Moving along, I pray they gain from this knowledge we obtain  
We run away from pain, no emotional stains  
I ain't out here for the games, the fame, the royalty  
I remember no toiletries when all we had was loyalty  
And now these niggas feeling my raps  
When you was thinking big, I was thinking bigger then that  
See this that Westcoast warning, building is believing  
Every single season I'm hitting a different region  
Then I'm teaching, imagine my imagination going wild  
Come into my world and see me hold it down  
You see the whole world vivid  
It's hard to be consistent, but I had to speak this shit into existence
